

## DORZOLAMIDE AND TIMOLOL EYE DROPS BP

Dorzolamide and Timolol Eye Drops BP are now available from Teligent Canada.

No.	Description	Strength	Concentration	Fill Volume	Units Per Pack	DIN	Pack Bar Code	Unit of Use Bar Code	McKesson Catalogue Number	Kohl & Frisch Item Number
0045AF02	Bottle	2% / 0.5%	20 mg/mL / 5 mg/mL	10 mL	1	02489635	00837641010903	(01) 00837641010903	TBD	TBD

**STERILE  
OPHTHALMIC**

Each mL contains: dorzolamide 20 mg (as dorzolamide hydrochloride) and timolol 5 mg (as timolol maleate)

Dorzolamide hydrochloride and timolol maleate ophthalmic solution is indicated for the reduction of elevated intraocular pressure (IOP) in patients with open angle glaucoma or ocular hypertension who are insufficiently responsive to beta-blockers (failed to achieve target IOP determined after multiple measurements over time). The IOP-lowering of Dorzolamide hydrochloride and timolol maleate ophthalmic solution administered twice a day was slightly less than that seen with the concomitant administration of 0.5% timolol administered twice a day and 2% dorzolamide administered three times a day
